

IT Professionals

Looking for your next challenge in technology?

At Zenzero, we're always interested in meeting talented people who are passionate about technology and want to be part of something exciting.

Whether you're an experienced IT Consultant, Infrastructure Engineer, Cyber Security Specialist, Software Developer, Project Manager, Service Desk Analyst, Cloud Engineer, Data & AI professional, or you're just beginning your career in IT, we'd love to hear from you.

As one of the UK's fastest-growing technology businesses, we're continually expanding our capabilities, opening new opportunities, and investing in exceptional people. Even if we don't have the perfect role available today, we'd like to start the conversation.

If you're ambitious, curious, and ready to make a real impact, submit your CV and tell us about the kind of opportunity you're looking for. We'll be in touch if there's a role that matches your skills and aspirations.

Why Zenzero?

Zenzero is a leading technology and managed services provider helping organisations unlock the full value of technology. Our teams work across managed IT services, cyber security, cloud, digital transformation, software development, modern workplace solutions, and AI, delivering outcomes that genuinely make a difference for our customers.

We're proud of the recognition we've received, but we're even prouder of the culture we've built:

- Named a Top 8 Technology Company at the British Business Awards 2026
- Recognised by Deloitte as a Best Managed Company
- Featured in the Sunday Times Hundred in both 2025 and 2026
- A Microsoft Solutions Partner across all six designations, placing us amongst the UK's most capable Microsoft partners
- A certified B Corp, committed to balancing growth with purpose and positive impact
- Winner of a Scale Up Award, recognising our continued success and momentum

But titles and awards only tell part of the story.

What really makes Zenzero special is our people. We're building a business where talented individuals can do meaningful work, develop their skills, and accelerate their careers. We encourage innovation, embrace new ideas, and create opportunities for people to take ownership and make an impact from day one.

What you can expect from us

- A supportive, collaborative and people-first culture
- Structured learning and development programmes
- Clear career progression opportunities
- Exposure to the latest technologies, including AI and cloud platforms
- Competitive salary and benefits
- Flexible and hybrid working opportunities where possible
- A culture that values feedback, ideas and continuous improvement
- The chance to be part of a high-growth business with ambitious plans for the future
